

Overview of Postmarketing Drug Safety Reporting Requirements

Kelley M. Simms, PharmD, MS, BCPS

Commander, US Public Health Service
Regulatory Affairs Staff, Office of Surveillance and
Epidemiology
CDER | US FDA

REdI Annual Conference 2020 – August 25, 2020

Learning Objectives

- Discuss the regulatory foundation of postmarketing drug safety reporting requirements.
- Recognize the importance of submitting accurate, reliable, and timely safety data to FDA.

Medicine in the Wild West

Notable drug laws – the beginning

1906: Pure Food and Drug Act

1938: Federal Food, Drug and Cosmetic Act of 1938

1951: Durham-Humphrey Amendment

1962: Kefauver-Harris Drug Amendment

Recent notable drug laws

A vertical timeline diagram consisting of four white circles connected by a blue line. The circles are positioned to the left of the text boxes, with the line extending from the top circle down to the bottom circle.

2006: Dietary Supplement and Nonprescription Drug Consumer Protection Act (DSNDCPA)

2007: Food and Drug Administration Amendments Act (FDAAA)

2012: Food and Drug Administration Safety and Innovation Act (FDASIA)

2020: Coronavirus Aid, Relief, and Economic Security Act (CARES Act)

Challenge Question #1

What drug was prescribed to pregnant women in the early 1960s, was found to cause fetal abnormalities, and led to legislation requiring drug manufacturers to prove scientifically that a medication was not only safe but also effective?

- A. Dextroamphetamine
- B. Diazepam
- C. Thalidomide
- D. Sulfanilamide

What's the difference?

Statute

Regulation

Guidance

Regulatory Landscape

21 CFR 314.80
(NDA drugs)

21 CFR 310.305
(Unapproved
prescription drugs)

21 CFR 314.98
(ANDA drugs)

21 CFR 329.100
(OTC monograph
drugs)

21 CFR 600.80
(Biological
products)

21 CFR Part 4,
Subpart B
(Combination
products)

Guidance for Industry

A magnifying glass icon is positioned to the left of the first text box. The handle of the magnifying glass is a thin blue line that extends downwards and to the left, passing behind the other text boxes.

Postmarketing Safety Reporting for Human Drug and Biological Products Including Vaccines

A magnifying glass icon is positioned to the left of the second text box. The handle of the magnifying glass is a thin blue line that extends downwards and to the left, passing behind the other text boxes.

Providing Postmarketing Periodic Safety Reports in the ICH E2C(R2) Format (Periodic Benefit-Risk Evaluation Report)

A magnifying glass icon is positioned to the left of the third text box. The handle of the magnifying glass is a thin blue line that extends downwards and to the left, passing behind the other text boxes.

Providing Submissions in Electronic Format — Postmarketing Safety Reports

A magnifying glass icon is positioned to the left of the fourth text box. The handle of the magnifying glass is a thin blue line that extends downwards and to the left, passing behind the other text boxes.

Postmarketing Safety Reporting for Combination Products

A magnifying glass icon is positioned to the left of the fifth text box. The handle of the magnifying glass is a thin blue line that extends downwards and to the left, passing behind the other text boxes.

Postmarketing Adverse Event Reporting for Nonprescription Human Drug Products Marketed Without an Approved Application

Postmarketing Safety Report Types

Individual Case
Safety Report
(ICSR)

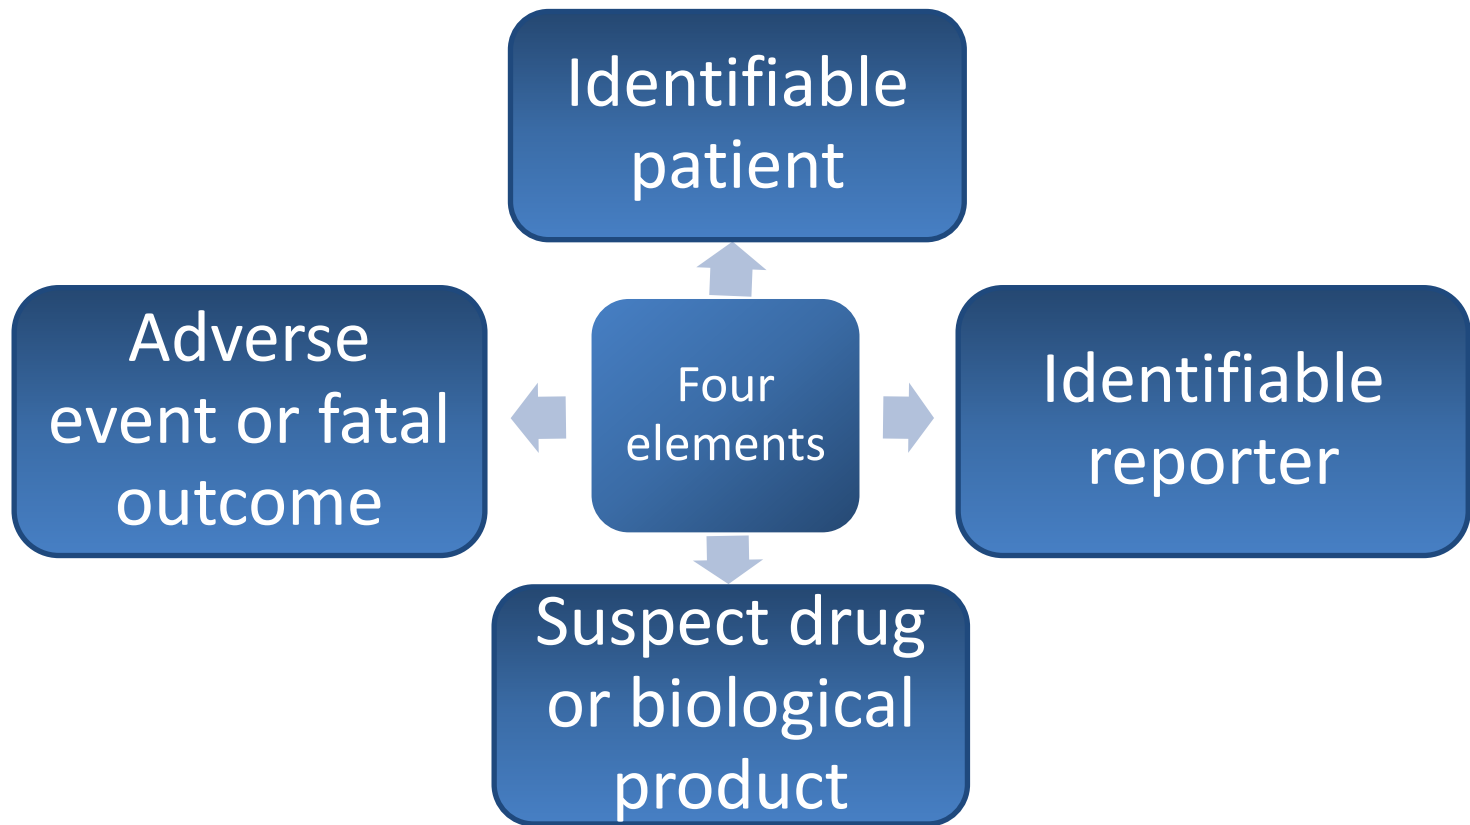

Annual Report^{*}

Periodic Safety
Report[†]

^{*} Refer to 21 CFR 314.81

[†] Periodic Safety Reports include Periodic Adverse Drug Experience Reports (PADERs) and the Periodic Adverse Experience Reports (PAERs). The Periodic Safety Update Report (PSUR) or Periodic Benefit-Risk Evaluation Report (PBRER) format may be submitted with an approved waiver.

At a Minimum...

Serious Outcomes

Death

Life-threatening

Inpatient hospitalization or prolongation of existing hospitalization

Persistent or significant disability/incapacity

Congenital anomaly/birth defect

Important medical event

NDAs, BLAs, ANDAs, Unapproved Prescription Drugs

Serious, unexpected

15-day Alert
Reports

Serious, expected

Non-serious, expected

Non-serious unexpected

Non-expedited
ICSRs

21 CFR 329.100 (OTC Monograph drugs)

Serious,
U.S.

15-day
Reports

Electronic Reporting

**Submit safety reports in an
electronic format**

<https://www.regulations.gov/document?D=FDA-2008-N-0334-0009>

Challenge Question #2

Which of the following outcomes does not meet the regulatory definition of a serious adverse drug experience?

- A. Life-threatening
- B. Birth defect or congenital anomaly
- C. Emergency department visit requiring intensive treatment
- D. Death
- E. Emergency department visit not requiring intensive medical intervention

Postmarketing Safety Report Types

Individual Case
Safety Report
(ICSR)

Annual Report^{*}

Periodic Safety
Report[†]

^{*} Refer to 21 CFR 314.81

[†] Periodic Safety Reports include Periodic Adverse Drug Experience Reports (PADERs) and the Periodic Adverse Experience Reports (PAERs). The Periodic Safety Update Report (PSUR) or Periodic Benefit-Risk Evaluation Report (PBRER) format may be submitted with an approved waiver.

Periodic Safety Reports (PSRs)

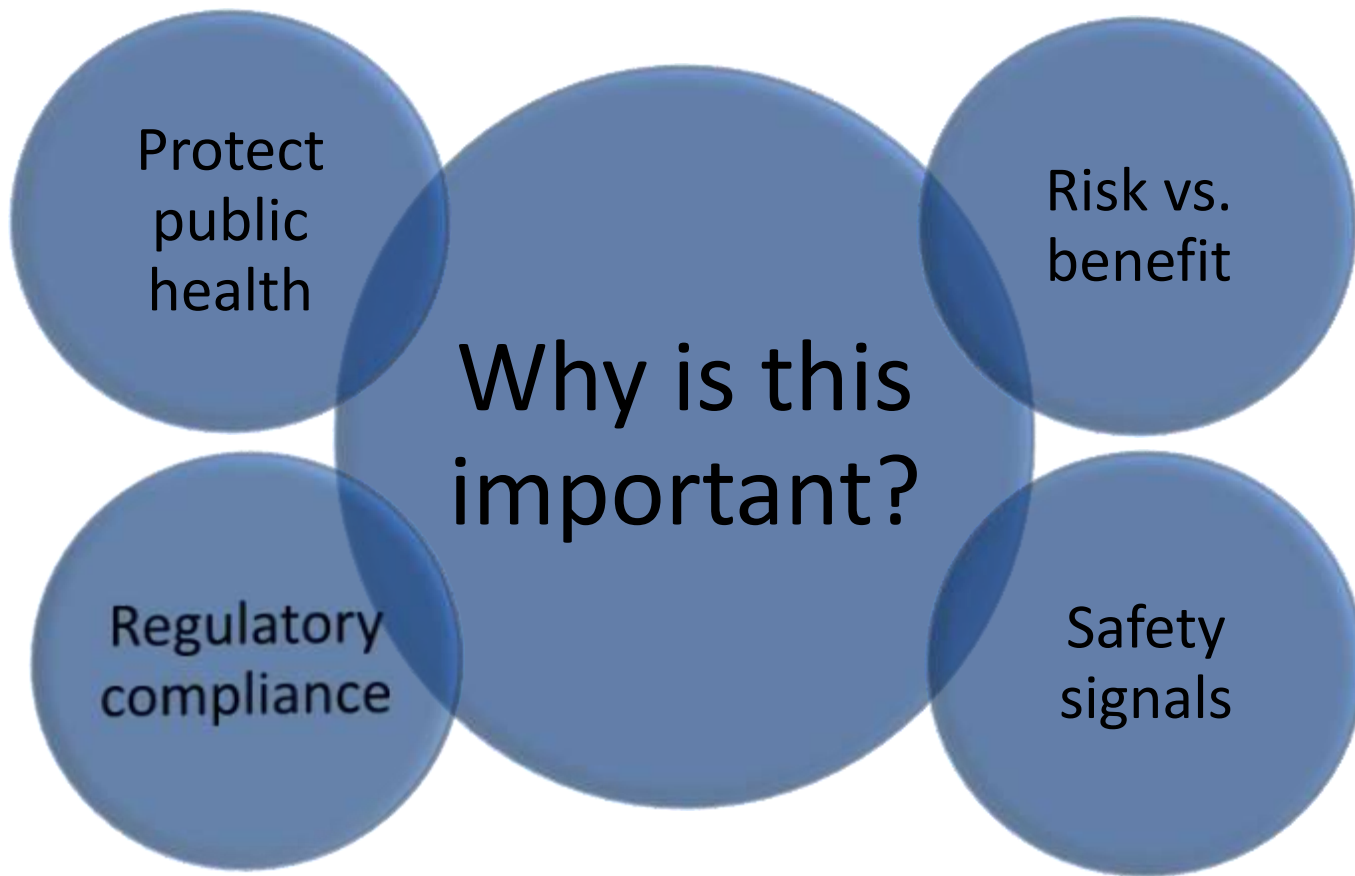

Periodic Adverse Drug Experience Report (PADER)	Periodic Adverse Experience Report (PAER)	Periodic Safety Update Report (PSUR)	Periodic Benefit-Risk Evaluation Report (PBRER)
Quarterly reports due within 30 calendar days of DLP*	Quarterly reports due within 30 calendar days of DLP	Intervals of 6 months due within 60 calendar days of DLP	Intervals of 6 or 12 months due within 70 calendar days of DLP
Annual reports due within 60 calendar days of DLP	Annual reports due within 60 calendar days of DLP	Annual reports due within 60 calendar days of DLP	Intervals covering >12 months due within 90 calendar days of DLP

* DLP: data lock point
